## DEMARTMENT NOTES

WEDNESDAY.

STATE DEPARTMENT. An amended charter of the Brazos Cattle Company was filed yesterday in the office of the secretary of state. Also the charter of Weimar Institute, incorporated by Messrs. J. T. Holman, D. W. Jackson, John W. Dickey and Stephen McCormack. The governor's proclamation of the adoption of the constitutional amend-

ments was printed in the form of circulars or posters, at the deaf and dumb asylum. COMPTROLLER'S DEPARTMENT. Payments into the treasury for

account of general revenue, yesterday, amount to \$20,248.68.

The comptroller is warranting on the state treasury for sums amounting to \$110,000, to buy New York exchange, with which to pay for Harrison county, Texas, bonds, lately purchased by the board of education for account of the permanent school fund. The bonds are paid for one-half in silver from the state treasury. Assessment rolls of Harris, Rains and Montgomery counties are re-\$40,000 increase, Rains about \$7000 de-

As the board are evidently disposed to purchase county bonds to a considerable amount, for investment of the permanent school fund, it has been suggested that the county authorities might facilitate the preparation of hem, and save considerable expense in the way of engraving and printing them, by simply issuing them in mannscript, say one, two or three bends, according to the amount wanted, or convenience in dividing the loan. A written bond for the entire amount ef a loan, say for \$30,000 or \$50,000, as the case may be, will probably suit the state as well as thirty or fifty bonds of \$1000 each, as payments by the county can easily be credited on

THURSDAY.

At the suggestion of Gov. Ireland the board of education yesterday pur-chased a \$30,000 bond of Gaudalupe bond reads as follows:

Bun & Co.'s Report. NEW YORK, Sept. 28.-Dun & Co. eport the market events of the past week-chiefly those relating to the important failures in the trade-which have occurred in New York city. These misfortunes can hardly be interpreted as indicating an unhealthy state of trade generally because they are all more or less traceable to departures from legitimate ousiness principles, the results of outside speculation and attempts to bolster up credits by an interchange of paper, long after the supposed capital employed had disappeared, or had been diverted into outside channels. The regular business of the city has been healthy. Sales of dry goods have been large, the absorption of stocks indicating a first rate retail demand throughout the country. Some large tion and education and sound moral houses report their sales as being very training paramount to all other questions. We believe that these questions.
